

POWERFOGGER TB60 DOUBLE

LVM SUITED FOR TREATING AREAS UP TO 2 HECTARES

Powerfogger TB60 Double gives you results and saves you time

The TB60D combines a big fog capacity with a quality droplet size (measurement report available). Therefore the TB60D can treat 2 hectares in 2 hours, giving the complete greenhouse a **uniform fog for the best results**. The completely automated controls make working with the TB60D easy and will help you to prevent an outbreak of any unwanted pests in your greenhouse. With the TB60D you can cut down on hours and hours of spraying with simply a push of the button.

Depending on the options on your fogger, your product may look different from the image.
