

# FADEX® Rapid

Without Alcohol  
Without Perfume  
No need to rinse

## Clean hands for professional agriculture

Liquid, ready-to-use cleaning agent for the removal of organic and inorganic dirt, plant sap, plant residues and chemical contaminations.

Hand cleaning in horticulture has very specific requirements. Plant sap and chlorophyll are often easy to see, but chemical contamination is invisible. Both are particularly difficult to remove. That's why it is necessary to use a special horticultural hand cleaner that is also gentle on the skin.

**FADEX® Rapid is alcohol-free, contains no perfume additives and cleans with the power of lemons.** It works both in a sink with water but also without it. Simply rub your hands with FADEX® Rapid and afterwards remove the residues with the towel.

Hand cleaning video

**MENNO recommends:** Pour 3 ml de FADEX® Rapid on your hand and rub for 30 seconds.

Cleaning **without** water: After rubbing FADEX® Rapid use a paper towel to get the residues off.

At the wash basin or station **with** water: After rinsing remove the residues with a paper towel.

### Cleaning product approved for organic production:

Standards: EU regulations on organic production, Demeter International, Naturland Germany, Gää Germany, permitted substance FiBL listed.
