Trinog, the **greenhouse** expert!

As an export-oriented enterprise, during recent **10** years, more than **90%** of our greenhouse engineering projects have been placed overseas. Our products have found destinations in more than **60** countries and regions including **Southeast Asia, the Middle East, Russia, Australia, Central America, South America, Africa, Europe**, etc.

Thus far, all of our engineering projects have received the approval of satisfied customers.

About us

Trinog-xs strives to become an internationally recognized supplier of high quality greenhouses. Our mission is to provide the most competitive solutions and services for in-house cultivation.

Trinog-xs Greenhouse Tech was founded in **2004**. Our company specializes in greenhouse design, development, assembly, and distribution.

Our factory is equipped with full set of advanced production machines.

We have become the only company in the Chinese greenhouse industry that can manufacture products which are on par with analogous European models.

Production Base

Our **250,000** square meter production base is situated within the Xingtai Industrial Zone of Changtai County. Our operating staff includes **200** employees. Their dedication has allowed us to successfully pass the **ISO9001** certification.

Production Base

Headquartered

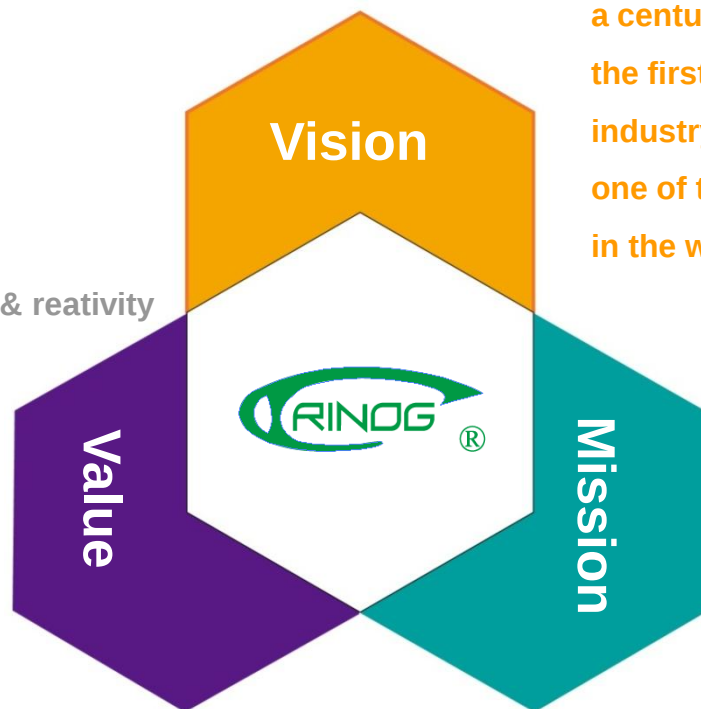

The office is located in the beautiful garden city : Xiamen, China, which is a big harbor city also.

Cultural Philosophy

- Customer first Innovation& reativity
- Team work
- Candor
- Devotion

Aim to become:
a century-old enterprise;
the first brand name in China greenhouse industry;
one of the top ten greenhouse companies in the world.

Listen to customers' needs and concern; offer optimal greenhouse growing solutions; provide professional service and continuous support; creat most wealth for customers, employees and the society
