TECHNICAL SPECIFICATIONS:

Electric power supply (complete with accessories)	400 V, 3ph + N + PE, 50 Hz	400 V, 3ph + N + PE, 50 Hz
Length	mt. 11,15	mt. 10,22
Width	mt. 2,79	mt. 2,48
Weight	1.825 Kg	1.410 Kg
Power	9 kW	7,15 kW
Compressor	3 - 4 HP minimum	3 HP minimum
Air consumption	140 l/min	135 l/min

La storia / THE STORY / LA HISTORIA

MOSA dal 1968

Nei primi anni '80 il grande know-how tecnico acquisito viene allargato al servizio dell'OrtoFloroVivaismo, sviluppando macchine altamente professionali. Sono nate così le rivoluzionarie trapiantatrici da campo aperto TO45 e le seminatrici di precisione in alveolo TO40M. Oggi Mosa-Green propone una gamma completa di sistemi per vivai, interamente Made in Italy, contraddistinta da macchine semplici ed esclusive. Agevolarne l'utilizzo, ridurre gli interventi di manutenzione, accrescere affidabilità e durata nel tempo, sono le caratteristiche che hanno conquistato la fiducia dei clienti più esigentia livello internazionale.

MOSA since 1968

The significant technical know-how acquired from this work was put to use in the early 1980s by OrtoFloroVivaismo (Horticulture), with the development of highly professional machines. This led to the creation of the revolutionary TO45 open field transplanters and the TO40M precision seeder. Today Mosa-Green has a complete range of systems for nurseries, all of them Italian made and notable for their simplicity and originality. Making machines easier to use, reducing maintenance, and increasing reliability and durability are the qualities that have earned the trust of demanding customers around the world.

MOSA desde 1968

A principios de los años '80, la gran pericia técnica adquirida se extiende al servicio del sector hortícola, floral y viverista, desarrollando máquinas altamente profesionales. Nacen así las revolucionarias trasplantadoras de campo abierto TO45 y las sembradoras de precisión para la siembra en celdillas TO40M. Hoy, Mosa-Green propone una gama completa de sistemas para viveros, totalmente "Made in Italy", que se distinguen por sus máquinas simples y exclusivas. Su sencillez de uso, reducidas exigencias de mantenimiento y alta fiabilidad y duración han conquistado la confianza de los clientes más exigentes del mercado internacional.
