

Flox 10, Iris 15 – Backpack sprayers

When the best gets even better: Flox 10 and Iris 15

Made in Switzerland

The best has become even better!

The backpack sprayers from Birchmeier have been the equipment of choice for demanding users for over 120 years. Their robustness is legendary and unbeatable. The best backpack sprayers in the world are characterised by functionality and ease of use. The new generation of Flox 10 and Iris 15: the uncompromising evolution of tried and proven products.

The pump – the driving engine

The 'old reliables' of the sturdy piston pump have been retained: the brass cylinder, the adjustable rubber piston ring, the simple to maintain non-return valve and the integrated grease cup. For even greater reliability, certain details have been enhanced – for example, a 180°-swivel hose fitting, a brass tank connection with fine filter, easy access to the filters, etc.

Stainless steel pump lever

Sets new standards concerning ergonomics and power transmission.

New trigger valve

Reliable brass trigger valve with a new locking and blocking function.

User-friendly and comfortable

- Top comfort by means of ergonomic design throughout
- Left or right handed operation, configured in seconds
- New pump lever system: Anatomically shaped, length-adjustable and made of stainless steel
- Padded S-shaped carrying belts with click system
- 60 cm brass spray tube

Heightened comfort for the users!

Robust and reliable

The guarantee for unrivalled quality and long life is the uncompromising use of high-quality materials, such as composite materials, brass and stainless steel.

Vario Gun
Art.No. 11558501

Herbicide Floodjet nozzle
Art.No. 10501803-SB

Adjustable nozzles 1.3 mm and 1.7 mm
Art.No. 28502598-SB, Art.No. 28502597-SB

Duro mist nozzles 0.8 – 1.65 mm
