Benomic Star

We offer you:

- Fast commissioning
- Easy maintenance
- Ergonomic system
- Stability and less contamination

The Benomic Star is made for carrying out harvesting and maintenance work to your crops at the right height. Stability, maintenance and ease of use were the starting points for developing the Benomic Star. Through the use of proven technologies, the Benomic Star is reliable in use and low in maintenance. Well-arranged controls and a selection of lifting heights ensure that activities are carried out in an ergonomically responsible manner.

Benomic Star

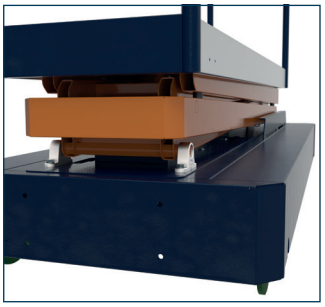

The clear dashboard, with as few switches and control knobs as possible, ensure quick familiarity with the controls and acceptance from the operator.

The foot pedal comes flush with the platform, this increases the ergonomic posture for the employee.

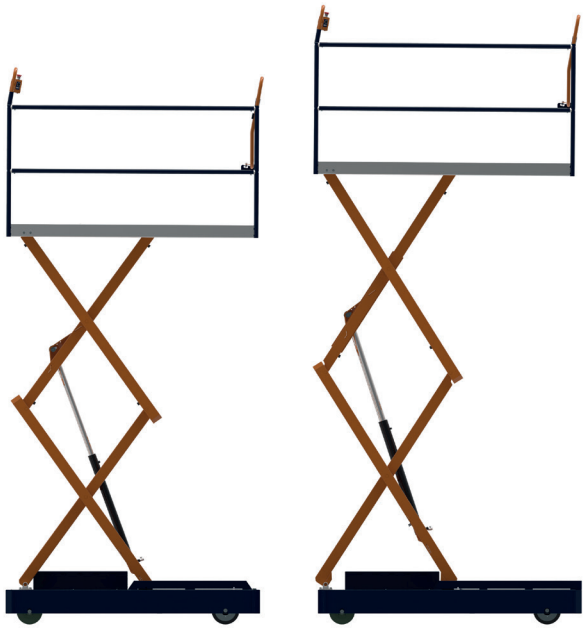

Easily accessible components and proven technology ensure simple and minimal maintenance.

The closed scissor components ensure high stability and a reduced risk of contamination from accumulated plant residues.
