

Let's make
the green switch!

We are Van Iperen International, Dutch producer of Specialty Fertilizers and Biostimulants.

Vision

To change the rules of the game in plant nutrition.

Mission

To become the most likeable partner towards sustainable agriculture.

I nnovative
P erforming
E thical
R eliable
E nergizing
N ice and Friendly

Innovation

We combine our knowledge in plant nutrition with the opportunities of biostimulation and we develop High Performing Solutions. These solutions will help growers to grow their crops in a more profitable and sustainable way even under challenging climatic conditions.

Our worldwide network

- Head office
- Regional offices
- Local sales
- Factories
- Distribution network

Factories

One of the largest Water Soluble NPK facilities in Europe.

One of the largest liquid specialty fertilizer and biostimulants factories in Northern Europe.

2021

*"At Van Iperen International, we are determined to enhance sustainable agricultural productivity with innovative solutions. We've only just begun. **Let's make the green switch!**"*

Erik van den Bergh
Managing Director Van Iperen International

The widest range of Specialty Fertilizers and Biostimulants

High Performing Solutions

High Performing Solutions is a range of innovative fertilizers helping growers to grow their crops in a more profitable and sustainable way.

GreenSwitch®

- GreenSwitch® Original

Algae Solutions

- FoliaStim®
- Pure Seaweed products

IPE® Technology

- Iperen IPE® Liquid
- WS NPKs with IPE® Technology

WAKE-up®

- Iperen WAKE-up® Liquid

Essentials

Essentials is a range of fundamental purely mineral fertilizers.

NPK Solutions

- Tailored formulas: *Water Soluble and Liquid NPKs*

Straights

- Calcium products: *full range of Calcium Nitrate (AG, FG, HG, HG+)*
- Magnesium products: *Magnesium Nitrate HG, Magnesium Sulphate HG*
- Nitrogen products: *Ammonium Sulphate HG*
- Phosphate product: *MKP HG, MAP HG*
- Potassium products: *SOP HG, PN HG*

Specials

- Calcium and Magnesium Derivates: *CalMag, CalZinc, Cal Boron, MagZinc, CalMag Zinc*
- Phosphite products: *Potassium Phosphite 50%, NPK Protect*
- Humic Acids

Micronutrients

- HBED chelates
- IDHA chelates
- EDDHA chelates DTPA chelates
- EDTA chelates
- Tailored Mixes: *Premium, Standard and Liquid Mixes*
